

April 7<sup>th</sup> 2021

JP TOLL LOGISTICS CO., LTD.

## Our employee is diagnosed with COVID-19

On April 7th, we found out that one of our employees working at our Tokyo Branch (Chiyoda-ku, Tokyo) has been diagnosed with COVID-19.

This is the second employee to be diagnosed in the same branch.

We have already disinfected and cleaned the workplace where the diagnosed employee was working. As for the employees who had contact with the employee, had no abnormalities in their physical condition as of now, but we have ordered them to stay at home for two weeks as a precaution. We will continue to take necessary measures to prevent the spread of the infection inside and outside the company and to ensure the safety of all our employees, by cooperating with the local public health center and other relevant organizations.

We would like to ask for your understanding and patience from our business partners and other related parties.

End
